

Many organisations operate without the advantages of an in-house IT department who constantly monitor maintain and control the development of the in-house systems to meet the needs of the business.

At Express IT Services, we aim to provide your business with all the advantages of having IT expertise for operating, maintaining and developing your IT infrastructure to ensure you can focus on developing your business.

We have a designated engineer for each customer that engenders continuity and a personal professional relationship, providing a standard of service which our customers have come to expect.

At Express IT Services we have a solid grounding in the areas of IT, Telecoms and Internet Infrastructure, ensuring we can provide a variety of solutions for any SME or major company.

We recognise that businesses face constant challenges to stay competitive and not be constrained by their systems, or by unnecessary inefficient investments.

Due to our Customer Care Initiatives we at Express IT Services have developed an extensive customer base and have over 95% retention of customers as they develop and grow their businesses. We ensure their systems enhance their business not constrain it.

Express IT Services are an independent provider of managed network solutions.

We can provide resources and Cost Effective Solutions from all of the Express IT group in order to provide user friendly, energy efficient and cost effective solutions to all aspects of Industrial, Commercial and Domestic Markets

We have introduced a Customer Care Initiative which is flexible covering installation, ongoing maintenance, problem solving, and consultancy.

We ensure that you are provided with first class advice and clear recommendations, to resolve existing problems and meet your future needs.

We can then provide, or project manage the implementation of your chosen solution to cost and time scale.

Even without an ongoing maintenance contract we can provide support on many fronts at competitive rates.

Our customer care programme includes annual system reviews to ensure optimum working of your systems.
