

Express IT were part of the PFI project for the new school initiative Lord Lawson a prestigious be-spoke education facility

Express IT staff arrived at 4pm. On a Friday at the end of a school day and by lunchtime the following day the school had been completely cleared of 450 desktop PCs, CRTs and printers to allow the installation of the new PCs to commence. The new systems were installed and fully operational for staff and pupils return to school giving seamless transition from old to new, the essence of the Building Schools For the Future Ethos.

Historically express IT have provided services from the various arms within the group. Apart from the various day to day supply of peripherals, printer toners and cartridges the Express Group have been called upon for supply, installation and configuration of fibre optic backbones with built in Redundancy, Interactive Whiteboards, LCD Projectors, IP cameras, Wireless integration

“Express IT have been very inspirational and enthusiastic in there approach with Lord Lawson. Whenever called upon the staff are always friendly, knowledgeable and go far beyond the norm in order to help”  
Ian Beveridge Lord Lawson school
