

Express IT Recycling provides a service to organisations faced with the ethical disposal of redundant or obsolete computer equipment.

Especially with the stringent WEEE regulations coming into full force on the 1st July 2007.

Express IT Recycling are fully accredited and licensed under the WEEE regulations. So you know you are dealing with a reputable company.

We will provide you with all necessary certification confirming that you have disposed of your obsolete equipment to our service.

Express IT recycling specialise on WEEE category 3, IT and Telecommunications focusing on PC systems.

We take your equipment and delete data on working hard drives.

Our standards optimise a method developed by the US Department of Defence (DoD 5220.22-M) to ensure that files are permanently removed from your hard drive.

Once all data is removed the equipment is then stripped and sorted for reusable parts or recyclable parts

Express IT are an independent provider of managed network solutions.

We can pull resource and buying power from all of the Express IT group in order to provide user friendly, energy efficient and cost effective solutions to all aspects of Industrial, Commercial and Domestic fronts

Subsequently all equipment is assessed for remanufacture.

Suitable components are then used to build 'new' PC systems.

Faulty or unusable items are further dismantled and the resulting scrap recycled by refineries creating fresh raw materials. Our aim is to reduce non recyclable waste to zero.

Due to the links we have into the education sector through our corporate business, we provide fully refurbished PC systems for home use by schoolchildren throughout the area, and donate equipment to local charities.

“You can be sure some of your old equipment will be put to good use.”

- Ethical Disposal
- WEEE Regulations
- Fully Accredited
- Fully Licensed by EA
- Reputable Company
- Conforming Certification
- Specialist recycling
- High Level Data destruction
